The following is an examiner's statement of reasons for allowance:

Claims 1-20 are allowed because the references of record do not teach or fairly suggest a condensate polisher system which contains a deep bed polisher having resin beads that are substantially exclusively single ion type, and a powdered resin polisher arranged to accept the flow from the deep bed polisher. As Applicant has correctly pointed out, Anderson (U.S. Patent No. 3,849,306) teaches away from this arrangement because the resin having the smaller particle size is located upstream of the deep bed polishers in this reference system (col. 4, lines 43-47), not downstream as recited in claims 1-20.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
